### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wayne Bailey (Reg. No. 32,289) on 7/30/2007. Mr. Bailey authorized an amendment to claims 5 and 30 and the cancellation of claims 51 and 53.

The amendment to the claims appears on the following page.

Art Unit: 2142

The claims should be amended as follows:

In claim 5, after the word “claim”, please delete “3” and insert -- 4 -- .

In claim 30, after the word “claim”, please delete “28” and insert -- 29 -- .

Please cancel claims 51 and 53.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The prior art was not found to teach or suggest a set of anchor objects having a unique anchorname that supports unique addressing within a logical network where each of the anchor objects is uniquely associated with a customer as required by claims 1, 20, 22, 26, 45, and 47. U.S. Patent Number 7,237,138 discusses the management and display of logical and physical topologies but does not teach or suggest the anchor objects as claimed. U.S. Patent Application Publication Number 2002/0152297 discusses management objects for physical topologies but does not teach the specifics of the claimed anchor objects.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
